## Equality Act Objectives 2021- 2025

1. To reduce the overall absence, including persistent absence of White British students and to bring it line with the other main ethnic groups within the school by July 2022.
2. To improve the progress made by students who are higher ability on entry to the school, by ensuring that the vast majority (>90%) achieve their school targets in all subjects by July 2023.
3. To improve the progress made by disadvantaged, lower ability pupils (to match those of other ability groups within the school) by ensuring that the pupil premium spending is more closely matched to their needs and that appropriate curriculum provision is in place for them by July 2022.
4. To continue to implement measures that promote the fundamental British values and eliminate all forms of radicalisation and extremist ideologies through our curriculum provision, SMSC and personal development programmes.
